

HADLEIGH WOODS GAZETTE

June 2023

www.hadleighwoods.com

Volume 176

Hello –

A Consumer quality water report will accompany this issue. We are required to distribute this report yearly to all owners/residents of Hadleigh Woods.

Don't forget the quarterly monthly Board of Directors meeting that is open to all owners/residents. This meeting will be held at the Nesmith Library, 8 Fellows Road, Windham, NH 030867 on Thursday, June 15 th at 4:00 pm.

After the old jockey pump in the pump house failed over the Memorial Day weekend, the spare pump was installed on Tuesday, May 30th, with no interruption of water service (or water pressure) to the community.

John

Property Management of New England

Dear Homeowners,

The landscapers have been busy with the mowing, mulch, and cleanup as well as the Landscape Committee. Thanks to all the volunteers for their time and effort. The septic tanks will be pumped this year. We ask that owners be very careful about what is sent into the drains. Grease must be poured into a separate container and put in the trash. Often during holidays or when guests help clear the table, they are not aware of what can be put down the drain and problems occur in the tank. Since tanks are shared, it is an expense that is shared with the neighbor to clear. Please inform guests whose intention is to help of possible issues that can be caused. Thanks to all and your efforts on the property in so many capacities that help keep expenses down and the property functioning so well.

Sincerely,
Ken Foley
NextGen

Hello All,

Paul, as a member of the Board of Directors, and Gene, a Volunteer invite you all to join us in the Annual Foundation Spraying Project. We would like to start this project during the first two weeks of June.

Based on previous experiences of termites and carpenter ants on the property, the need to spray all our foundations for insects is a required task.

If you would like to assist, please contact Paul or me. We have the chemicals and spray tanks to complete this project in the Storage Shed and can give guidance on how to apply the solution. So, if you spray or have someone spray the foundation on your own, please contact us so we do not duplicate the applications.

Thanks,

Paul & Gene

Food for Thought

New Lemonade Product

If you like Lemonade as a refreshing summer beverage and don't want to deal with all the calories, there is a new product on the market by Newman's Own. For an 8oz glass of regular lemonade you will get 100-200 calories from sugar and 20-25 grams of carbohydrates. If you try "Light Lemonade" by Newman's Own, you will get 25 calories of sugar and 6 grams of carbohydrate. This product used lemon juice concentrate, Cane Sugar and Stevia extract and lemon oil to provide that "sweet-tart" flavor.

The Gold Standard for sugar free lemonade was always produced by Minute Maid. It is now "zero sugar" lemonade. It is "zero calories" with less than 1 gram of carbohydrate. It is sweetened with Aspartame (Nutra Sweet) and 5% lemon juice concentrate and has chemical additives to create the "sweet-tart" flavor.

Hope you enjoy either one this summer!

Claudette

June 2023 Holidays, Observances & Events
