

Irrigation System: Backflow Prevention Devices

There are five Backflow Prevention devices for the Irrigation System at various locations. They all tap off the main water line for the community water system. They are located below grade in fiberglass boxes with an access panel on the top of the boxes at grade level. They all have shut off valves to stop water flow to the various zones in the Irrigation System.

LOCATIONS:

- Between 19 Hadleigh Road and the Pump House in the lawn near the street
- In the lawn in front of the Utility Boxes in front of 18 Hadleigh Road
- Near the rock garden in the lawn by the Parking lot behind 21-23 Hadleigh Road
- Near the intersection of Hadleigh and Blackburn Roads in the lawn in front of 26 Hadleigh
- On Flat Rock Road in the lawn near the sidewalk by the easement halfway between 27 Flat Rock Road and Hadleigh Road
